"Chronic Knee Pain Helped With Amazing New Technique."

"Are you interested in getting rid of your knee pain?"

-Fayetteville, NC I'm going to ask you a simple question.

"Knee Pain"

"Are you interested in getting rid of your knee pain?"

Do you think that you'd be open to doing something that would really "help" your knee pain, and wouldn't cost you an arm and a leg? If you answered "YES" to those questions -- keep reading.

Imagine what you'd be able to do if you didn't have knee pain?

Imagine how you'd feel without any knee pain holding you back?

SCHEDULE AN APPOINTMENT!

ANYONE CAN AFFORD TO DO THIS!

Listen... there are a lot of people that suffer from knee pain and all they THINK they can do about it is take medication or have surgery.

What if there was a unique technique that could help you get rid of your on- going, constant knee pain ... without you having to use drugs or have any type of surgery.

Would you be interested?

If you answered "YES" to that question, keep reading.

I'm Dr. Richard Walker and I've been a local doctor in the Fayetteville area, and in that time I've seen all kinds of knee pain.

Sometimes it's a young boy who's been playing football and torn his ACL ligament.

But if it's not that type of sport athletic injury, then it 'boils down' to about three or four things.

- Arthritis (wear & tear)
- A knee surgery gone bad or reinjured...
- A misaligned knee joint
- Improper nutritional component.

Now I know you don't care what causes it, you just want it FIXED.

And I get that. But do you think in your wildest dreams that taking drugs is curing anything having to do with your knee pain? NO, it doesn't.

If you've ever had any knee pain, that bothers you no matter what you do, or what you take, you need to contact me ASAP.

TRUE STORY

Gwen was a woman who was 60 years old, lived with her friend in town, had a good job, was getting ready to retire and travel, and had high hopes of spending a lot of time playing with her grandchildren.

Then it seemed like out of no where she developed this quirky knee pain.

When she was at home on her computer, her knee would ache.

When she was standing for longer than a few minutes her knee would throb. She thought it'd just go away, but it didn't. It just got worse.

Then she called the office. Within a few weeks, she was back to normal.

Here's what she said.

"My knee started out hurting for a few hours at a time, and then it just got progressively worse. I tried lots of doctors and was on three different types of medications. I started having other issues and all I could tell was my health was getting worse and worse. I saw Dr. Walker and he did an exam and told me he thought he could help. Thank goodness I called." *Gwen B.**

"Dr. Walker was great. He more or less saved my life. I had been to some other doctors in the area, but none of them had been able to take my knee pain away. It hurt. I hurt from the time I got up in the morning, until the time I went to sleep and sometimes my knee hurt me even in bed, so I was really upset. But with Dr. Walker's treatment my knee pain was better. I am almost 100% now."

*D. Bruce**
